Dear Sir,- The enclosed "mass of Bullion", with  
 the coin as stated, is received. While I  
 have had no fault to find with the tokens  
 from any of the former lots sent you, I  
 must say I am disappointed in this one,  
 as I had calculated upon about \$150-  
 and my former calculations were very incorrect.  
 I do not wish to criticize your methods of  
 ascertaining values, or the honesty of anyone,  
 but poor human nature does sometimes make mistakes,  
 as you will notice by the fact that this

memorandum has not been cashified.  
If it is yet possible please make an examination  
into this matter, and greatly oblige.

Yours truly  
Geo. Greene

Dear Sir:-

The enclosed "means of Bullion", with the coin as stated, is received a while I have had no fault to find with the returns from any of the former lots sent you. I must say I am disappointed in this one, as I had calculated upon about \$155 - and my former calculations were very correct.

I do not wish to criticize your methods of ascertaining values, or the honesty of anyone but poor human nature does still make mistakes, as you will notice by the fact that this memorandum has not been certified to. If it is yet possible please make an examination into this matter, and greatly oblige.

Yours truly
